University Avenue to Close Temporarily for Paving

MORGANTOWN – University Avenue will close temporarily next week while crews finish up the final stages of the University Avenue/ Third Street intersection project.

The route will close to traffic for several hours on Tuesday starting around 6 a.m. for milling to prepare the road surface for paving. Detours will direct traffic down Third and Eighth Streets to Beechurst Avenue during that time.

University Avenue will also be closed all day Wednesday while crews lay down the final wearing course of asphalt.

Once University Avenue is paved, it will remain open to traffic while crews complete sidewalks, traffic signals and other aspects of the project. However, single-lane closures are possible as work continues.

Additionally, Grant Avenue will be closed part of Tuesday and all day Thursday for paving as crews complete the University Place construction project.
