ALERT SYSTEMS

WVU Alert (Emergency Notification)

These notifications are issued for significant emergencies or dangerous situations, such as an active shooter, bomb threat or explosion. Emergency notifications also can be issued for incidents that aren't crimes, such as a gas leak or a nearby chemical or hazardous waste spill.

Campus Warning (Timely Warning)

These notifications are reported in a timely manner once all pertinent information is available. They are reserved for Clery crimes within Clery geography that pose an ongoing threat to the campus community.

Community Notice

These notifications are not required by the Clery Act and are issued at the discretion of the University. Community Notices help enhance safety, and the originating incident does not need to occur on campus.
